

Bryan School On-Campus Student Laptop Policy

All Bryan School students should have access to a laptop computer that can be used in Bryan Classes and which meets the following requirements:

1. Contain an office suite that is able to create and open Microsoft Office 2007 compatible documents
2. Contain a wireless network capability that is able to connect to the UNCG wireless network
3. Contain a web browser that is able to work with the UNCG Blackboard system

Students without access to laptop may arrange a short-term checkout of a laptop from the Bryan School MBA Office (Bryan 220).

Faculty may require a student to bring a laptop that meets the criteria shown above to any class meeting by announcing the requirement in advance of the class in which its use will be required.

UNCG provides students with special discounted pricing on specific hardware and software. Information on these products is available at:

http://its.uncg.edu/Technology_Purchases/

Any questions about this policy should be sent to Dr. John Eatman (jleatman@uncg.edu).
