

The overall department ranking is taken directly from RePEc's ranking of US economics departments, available at <http://ideas.repec.org/top/top.usecondept.html> (accessed September 27, 2010).

The field rankings are taken from <http://ideas.repec.org/top/top.hea.html>, <http://ideas.repec.org/top/top.ene.html>, and <http://ideas.repec.org/top/top.lab.html> (accessed September 27, 2010). For fields, RePEc only ranks "institutions", which includes not only US economics departments but also non-economics departments, international departments, and non-academic organizations. We report our rankings after dropping institutions other than US economics departments.
