We Can Make IT

“IT is for Girls” Workshop

www.uncg.edu/bae/isom/wit

Join us for a half-a-day free workshop at UNCG for exciting hands-on activities, where you will learn to create animations, interactive narratives, and video games using SCRATCH software from MIT, design web pages, explore computer and internet security, and investigate fun ways to visualize data. Meet successful Tech Divas from area firms and UNCG to learn about career opportunities. You can also interact with some of our IT majors and view senior projects. **Check out the website for details.**

(contact: Lakshmi Iyer, Lsiyer@uncg.edu; 334-4984 if you have questions)
