QA & Testing in an Agile World
Shaun Bradshaw
Zenergy Technologies, Inc.

Abstract:
Agile has gained an unshakable foothold in numerous development organizations as its popularity continues to increase. However, many organizations struggle to understand how their once-traditional QA and testing processes translate to the Agile world. In this presentation, Shaun Bradshaw covers the basics of Agile, introduces SCRUM, and demonstrates the challenges and rewards in store for traditional QA and testing professionals as they navigate the Agile landscape.

Speaker Bio:
Shaun Bradshaw has spent the last thirteen years helping numerous companies improve their QA and test processes by advising, teaching, and mentoring them on effective testing and test management techniques as well as implementing optimized test metrics. Shaun speaks at many of the major industry conferences including StarEast, STPCon, and QAI's Quest, and is recognized for his presentations on test metrics, the S-Curve, and the Zero Bug Bounce. Shaun is a graduate of the University of North Carolina at Greensboro with a Bachelor of Science in Information Systems.
