

Work in Alaska

# Denali National Park

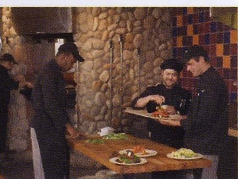

Are you ready for the opportunity to spend a summer working in one of America's most unique places? Where the mountains meet a sky of 24 hour daylight, the rivers abound with salmon just ready for an early morning cast, or maybe the thrill of hiking over taiga and tundra and following a herd of caribou on their ancient migration routes...

Denali offers a unique experience to all who visit - it's a trip of a lifetime. We hope that it will be the job opportunity of a lifetime too. Spend a summer behind a front desk at a local hotel, expand your culinary skills - preparing fantastic meals out of local fare. Perhaps drive a tour bus and educate visitors about Denali's natural and historic features. We also need mechanics, electricians, and administrative staff - those behind the scenes staff that keep a resort running.

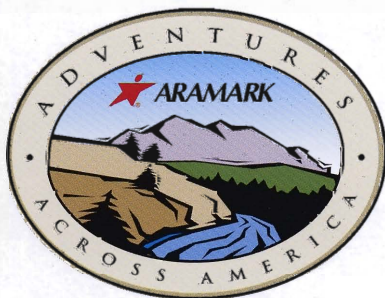

We offer on-site housing, great pay, training and bonuses.

Don't be shy! - Apply now!
