

Disney Internships

Students interested in Disney should attend an informational session while Disney reps are on campus. This should be done the semester BEFORE the student plans to go the following semester.

While students are at Disney, they can take online courses through UNCG or elsewhere. If taken elsewhere, they need to make sure the classes will transfer in evenly to UNCG as a required credit.

Students can take Disney's *Organizational Leadership* course AND Disney's *Human Resource Management* course and **both of these together** will count as HTM 251.

Disney's *Advanced Studies in Hospitality Management* course and Disney's *Corporate Communication* course can be **taken together** for credit for HTM 354.

Students who wish to use Disney as their internship, must meet all internship prerequisites (200 hours or more, HTM 151, 351, and MGT 312). If they do not have all requirements, they can still go to Disney, but it will not count for their internship.
