

The Landmark Center

Recreation Therapy Interns

The Landmark Centers, the 75-bed Assisted-Living Facility of the Landmark Group, is located adjacent to the campus of Blue Ridge Nursing Center, our Nursing Facility in Stuart, Virginia. Opened in 1996 by The Landmark Group, the Landmark Centers is known for its quality of service and elegance

LOCATION

Located near the Virginia-North Carolina border, Stuart is easily accessible to the Virginia communities of Martinsville, Danville and Roanoke, and the North Carolina communities of Mt. Airy, Winston-Salem and Greensboro.

We are now interviewing for recreation therapy interns, a 12 week, 480 hour, program. You will work with residents both 1:1 and in groups. You will do assessments, plan, implement and evaluate interventions to meet the needs of the resident along with the necessary documentation. We have a wonderful greenhouse in which to provide horticulture therapy and we work with local artisans in teaching different forms of artwork to residents. This is a great therapeutic intervention for residents. Meals will be provided free of charge.
