

Hello! My name is Megan Kaufman and I am working with Autumn Hume, the Health Care Services Coordinator for the Muscular Dystrophy Association in Greensboro, North Carolina. We are currently in the process of planning our MDA Summer Camp. This is a week-long camping program for youngsters age 6-21, who have a neuromuscular disease. It is held locally each year at Camp Carefree in Stokesdale, North Carolina. This year it will be held the week of Saturday, August 9 through Friday, August 15.

Right now I am in the process of recruiting camp counselors. This is a wonderful hands-on experience for people going into physical therapy or other medical fields, and it is definitely a great résumé builder. I was wondering if it would be possible to come speak with you about our camp program, and what the best way to get the word out to the physical therapy students would be. Please feel free to contact me by email or by telephone at (336) 856-1591 with any questions or thoughts you may have.

Thank you for your assistance. Have a great day!

Megan Kaufman
