

Hello All,

My name is Andrea Williams and I am the Intern Program Coordinator for the Fleet & Family Readiness program (NAVY). I am tasked with helping to recruit more college seniors and graduate students for Culinary Arts, Culinary Management, Hospitality Management and Restaurant Management.

ABOUT OUR PROGRAM: This program has many facets that include broad hospitality management offerings. We offer club/restaurants, a hotel business (called Navy Gateway Inns and Suites) with more than 30,000 rooms and a variety of other recreational industries such as golf course and marina management. Additionally, we are responsible for housing Navy families and bachelors.

While life alongside the military may not be for everyone, I would like to encourage you to have your graduating students research our internship opportunities within our vast, global enterprise. The internship offers a meal allowance, lodging, and the opportunity to travel to different locations both stateside and overseas. All of this while serving the nation alongside some of the finest men and women one could ever come to know makes us an exciting and rewarding experience. Our website is below to pass along to your students.

Andrea T Williams
