I wanted to let you know about a new internship opportunity that is available. I am the Life Enrichment Coordinator at Remington Medical Resort in Richardson, TX (just north of Dallas). We are a brand new facility that specializes in Transitional Care and Healthcare with Hospitality. We are licensed as a SNF but we will not have any LTC residents. All guests will be short-term rehab.

Our admissions will be a lot of ortho, CVA, CABG, COPD, etc. We are also anticipating that once we have other insurance contracts we will work with workman's comp and other younger guests. We are also anticipating a lot of Plastic Surgery recovery. I encourage you to take a look at our web site to learn more about our facility. I think this could be a great opportunity for your students. Thanks for your time! Please feel free to contact me with any questions. I realize we are a bit far from you but I wanted you to know in case you have any students who are from the TX area or who want to have an internship experience in another part of the country.

Amy Devoe, MS, CTRS
Life Enrichment Coordinator
