Recreation Intern

The Southern Pines Recreation and Parks Department has designed and implemented a 12 week internship program that provides students with a well-rounded experience which introduces the intern to all aspects of a diverse and comprehensive parks and recreation program. This provides the students with an opportunity to put what they have learned to work. It is a "hands on" experience that reflects what park and recreation professionals do on the job to ensure the necessary and enhanced services to the community.

Applications are available on-line at www.southernpines.net. For more information call 692-2463.
