

Pharos Print System Notice

(-\$99,999)- Pharos First Login Setup Amount

If you see the above balance amount, this is because you've just logged into the upgraded printing system with your UNCG ID card for the first time. Simply log out and back in and you will see your correct amounts so that you may print. Please see a lab consultant if you have questions!

WARNING: DO NOT SHARE ID CARDS

The upgraded Pharos printing system DOES NOT ALLOW sharing of University ID cards in the computer labs. If you allow someone else to use your card, this will cause both printing accounts to become locked. If this happens you must visit the SuperLab in order to have your printing account unlocked.
