

# UNCG Gerontology Research Network Workshop

UNCG GERONTOLOGY  
RESEARCH NETWORK

*Facilitating  
transdisciplinary  
aging-related research  
at UNCG.*

## Building Capacity for Collaborative Interdisciplinary Gerontology Research

**Judith A. Spross, PhD, RN, FAAN, Professor of Nursing at the Univ. of Southern Maine,** leads a professional development workshop to create a locally cohesive research community prepared to address the biologic, clinical, and policy needs of elders in our society.

Participants will use *Strengthsfinder 2.0* (Rath, 2007) assessments to explore possibilities. Activities will help participants identify UNCG aging-related research expertise, build faculty collaboration, coordinate funding resources and focus research talents for active engagement in the **UNCG Gerontology Research Network**.

**Participation is free, limited to 25 participants, and preregistration is required!** Lunch is provided. Upon preregistration you will receive a *Strengthsfinder 2.0* book, complete the assessment tool, and identify your top strengths and professional goals. Then together we formulate collaborative aging-related research and partnerships at UNCG. **Space is limited so preregister today** via Mary Wolfe at [mlwolfe@uncg.edu](mailto:mlwolfe@uncg.edu) or 336-256-1020.

**Wednesday • March 28, 2012 • 9:00 a.m. - 3:00 p.m.**  
**UNCG • Ferguson Building • Room 247**
