Welcome to this class! In History 347, I hope to introduce students to the historical development of North Carolina, both chronologically and topically, from its beginnings in the sixteenth century up to the present time. To do so we will focus on diverse subjects such as politics, race, gender, economics and culture, all the while attempting to understand how historical events touched everyday citizens. We will view History not as a random list of dates and events, but more of a narrative of inter-related events.

As this section is speaking intensive, we will also investigate and emulate key orators and orations in North Carolina history, and each of you will add your part: we will work together on your familiarity with North Carolina history and on your ability to speak and present effectively.

Required Texts:

The North Carolina Experience, by Lindley Butler and Alan D. Watson
North Carolina: A History by William A. Link (available on Blackboard site in PDF format)

Grading Policies and Breakdown:

Mid-term exam	25%
Final exam	25%
Group & Individual Presentations	40% (see separate assignment sheet for rubric)
Class Participation & Attendance	10%

The course exams will be short answer and essay format and will be given during the class session. The presentations will involve active involvement in the materials, as such; the class will be divided into small presentation groups. Students will be assigned to the group, and the small groups will be responsible for presenting one of the sections of the Butler and Watson book that was assigned to them. Presentations need not be a multi-media extravaganza, rather just a coherent presentation of the topic. Each student will also present to the class their own special topic, which will be assigned by the instructor.

Attendance Policy:

As this class is speaking intensive, one of the major components of your grade is discussion and oral presentation. Attendance will be taken regularly, and three unexcused absences will result in the loss of one letter grade: seven unexcused absences will result in your removal from the course.

Course Schedule

On the flipside of the page is an outline of our schedule, with corresponding readings for each lecture. This is just a planned schedule—we may fall behind or jump ahead.

Date	Class discussion topic	Readings
August 25, 27, 29	European Invasion—Clash of Cultures <i>Friday: Presentations Overview & Prep Sessions</i>	B&W, Chapter 1 Link, Chapter 1
