

## 2009-2010 Undergraduate Research Assistantships

Student Name	Faculty Mentor	Department	Title
Morgan Bartlett	Susan Calkins	Human Development and Family Studies	The Effects of Maternal Depression Symptoms on Children's Social and Behavioral Development
Tamara Cagle	Joanne Murphy	Classical Studies	Morphological Study of Beads from Bronze Age Palace of Nestor
Patricia Chipman	Susan Andreatta	Anthropology	A Comparative Study: Alternative Medicine Two Views One World
Linda Coley	Richard Faldowski	Human Development and Family Studies	Effects of Early Head Start Service Participation on Mother and Child Outcomes
Alexandra Cornejo	Susan Phillips	Communication Sciences and Disorders	Investigation of Phenotype in Families of Student Musicians with Music-Related Hearing Loss
Pamela (Nego) Crosson	Mona Shattell	Nursing	Cultural Competency in Pre-Licensure Nursing Programs
Brittany Davis	Lakshmi Iyer	Information Systems and Operations Management	"We Can Make IT": Towards Broadening the Role of Women in IT
Mira Eng-Goetz	Patrick Lee Lucas	Interior Architecture	Archetype : Prototype : Hybrid -- Decoding messages in the mid-century landscape of Pleasant Garden, NC
Sabrina Epps	Gregory Grieve	Religious Studies	Researching Liquid Salvation: An Online Ethnographic Study of the Virtual World of Second Life
Meghan Fitzgerald	Jan Rychtar	Mathematical Sciences	An Interdisciplinary Study of Kleptoparasitism in Argyrodes Spiders
Mary Garrard	Stephen Sills	Sociology	Community: Transnationalism and Social Support among Female Migrants
Christie Haugh	Tracy Nichols	Public Health Education	BRIGHT (Building Relationships Involves Growing Healthy Together) Intervention Study
Carla Hughes	Keith Debbage	Geography	Place Competitiveness and Urban Benchmarking: The 2010 Greensboro State of the City Report
Robert Isdell	Anne Hershey	Biology	Physical vs. Biological Controls of Invertebrate Distributions in Arctic Lakes and Ponds
Ashley Jarrell	Mona Shattell	Nursing	The Effects of an Open Nurses' Station on Nurse-Patient Interactions and Nurse, Mental Health Technician and Patient Perceptions of the Psychiatric Inpatient Treatment Environment
Anne Keyworth	Tracy Nichols	Public Health Education	Pregnant and Parenting Students: Examining School Climate and Perceived Need for Support Services
Soo Kim	Sat Gupta	Mathematical Sciences	Estimating Sensitive Level of Binary Response Survey Questions
Ia Lee	Alice Haddy	Chemistry and Biochemistry	Characterization of the pH Dependence of Chloride Activation in Photosystem II Preparations
Jayne Mallindine	Gregory Grieve	Religious Studies	Researching Liquid Salvation: An Online Ethnographic Study of the Virtual World of Second Life
Angaza Mayo-Laughinghouse	Stephen Sills	Sociology	Civil Rights and Involvement in Social Movements: Why youth become activists.
Tania Moon	Jackie White	Psychology	Shared Target Aggression Within the Friendships of Young Women
Allison O'Leary	Janet Boseovski	Psychology	The Role of Information Processing Flexibility in Social and Cognitive Decision Making
Brandon Ore	Alice Haddy	Chemistry and Biochemistry	Characterization of a New Calcium-Depleted Photosystem II Preparation
Claudia Patterson	Richard Faldowski	Human Development and Family Studies	Effects of Early Head Start Service Participation on Mother and Child Outcomes
Joanna Prose	Etsuko Kinefuchi	Communication Studies	What is Exactly Diversity?: Perspectives and Experiences of College Students
John Rainey	Keith Debbage	Geography	Place Competitiveness and Urban Benchmarking: The 2010 Greensboro State of the City Report
Peter Salvucci	Gavin Douglas	Music	Exploring Musical Expressivity within Turkish Makam: a Study in the Role of Performance and Pitch Variables
Kelsey Sapp	Eva Nwokah	Communication Sciences and Disorders	Language Creativity in Children with Language Disorders
Adama Secka	Nadja Cech	Chemistry and Biochemistry	Identification of Novel Antibacterial Agents from Natural Products
Shruthi Shyamasundar	Michael McIntosh	Nutrition	Antioesity Mechanism of Conjugated Linoleic Acid in Human Adipocytes
Jasmine Stevens	Eva Nwokah	Communication Sciences and Disorders	Music and Movement to Support Communicative Interaction between Adolescent Mothers and Children
Jemma Strauss	Thomas Kwapil	Psychology	Development of a Measure of Asperger's Disorder Traits
Lauren Summerville	Maura Heyn	Classical Studies	Women, Chastity, and Gesture in Ancient Rome
Natasha Todd	Brett Nolker	Music	The Effect Of Group Versus Individual Teacher Rhetoric On Individual
Zimuzor Ugochukwu	Dennis Lajeunesse	Biology	Phenotypic Characterization of CG16972
Megan Wallrichs	Matina Kalcounis-Ruppell	Biology	The Influence of Integrated Biofuel Production on Rodent Diversity and Behavior in Managed Pine Plantations in the North Carolina Coastal Plain.
Katherine Watkins	Charles Prysby	Political Science	Southern Congressional Elections, 2004-2008
Philip Wingfield	Patricia Gray	Music	Music Perception in Ape (Pan paniscus)
Lauren Zawistowski	Christine Woodworth	Theatre	Dramaturgy and Performance: Mapping the World(s) of the Play(s)
