

# The North Carolina Genetics of AD/HD Project

Do You Have a Child With AD/HD  
Between 5 - 12 Years of Age?

Would You Like to Help Us Learn More About  
the Genetic Causes of AD/HD?

If you and your family decide to participate in this research study, we will:

- Pay your family \$50 as compensation for your time and effort
- Provide a research summary of our findings for each family member

Families who participate will spend approximately 1-2 hours to:

- Answer interview questions about family/medical history and environmental risk factors
- Complete parent and teacher behavior rating forms
- Perform psychological tests assessing attention, impulsivity, problem solving, and memory
- Provide a blood sample obtained by a certified medical technician

To participate or to obtain additional information, please contact:

Dr. Erin Kane @ 346-3195, ext. 308  
Dr. Arthur D. Anastopoulos @ 346-3195, ext. 303
