

Degree Evaluation (WebCAPP) for Advisors CAPP Glossary

Area:	Building blocks of the program. Areas are the connection between the program and the detail course requirements. Each major component of the program's requirements should form an area (ex. major, general education, etc.).
CAPP:	Acronym for the Banner Curriculum, Advising, and Program Planning module (degree audit).
Compliance:	The processing of the degree audit. Compliance is the process that allows CAPP to check the defined program information against the student's record for the generation of a report.
Degree Evaluation:	The term for the degree audit online.
Program:	Highest level of the hierarchy. Degree or certificate the student is working towards.
Qualifiers:	A feature within areas that allow requirements to be checked based on student characteristics.
Requirements:	The detailed specifics of what the program or area requires. Program Requirements = General Degree Requirements Ex. 122 hrs to graduation 31 hrs in residence 2.0 min GPA Detail Requirements (Areas or Groups) = Course Requirements Ex. ENG 101 MKT 320
Rules:	Programming feature within CAPP that allows for more complicated requirements or requirement choices. For example, if the requirement was take 3 courses from a list of 10 courses, a rule would be able to process this requirement.
WebCAPP:	The online version of CAPP that will allow students and advisors to view past compliances, run a new compliance on current student data, or conduct a "what if" scenario for changing majors.
