Permission therefore is granted for this work.

Signed ___________________________ Title ___________________________

INSTRUCTIONS FOR SUPERVISOR:
1. Confirm the precautions shown on reverse side.
3. Issue Part 2 to person(s) doing job.

SUPERVISOR TO MAINTAIN IN CONSPICUOUS LOCATION DURING WORK

This is a copy of a two-sided, two-part permit, that is available from the Office of Safety or Industrial Risk Insurers.

IS IT POSSIBLE TO DO THIS JOB IN THE MAINTENANCE SHOP? DO NOT CUT, WELD, OR USE OTHER OPEN-FLAME OR SPARK-PRODUCING EQUIPMENT UNTIL THE FOLLOWING PRECAUTIONS HAVE BEEN CHECKED.

1. Flame or spark-producing equipment to be used has been inspected and found in good repair.
2. Sprinklers, where provided, are in commission and will not be taken out of service while this work is being done.
3. There are no combustible fibers, dusts, vapors, gases or liquids in the area. Tanks and equipment previously containing such materials have been purged. The absence of gases or vapors has been verified by a combustible gas detection instrument. If there is a possibility of a leak developing in nearby piping, equipment, or tanks, this area is being continuously monitored.
4. The work will be confined to the area or equipment specified on this permit.
5. Surrounding floors have been swept clean and, if combustible, wet down.
6. Ample portable extinguishing equipment such as hand hose or extinguishers have been provided.
7. All combustibles have been relocated 35 feet from the operation and the remainder protected with metal guards or flameproofed curtains or covers (not ordinary tarps).
8. All floor and wall openings within 35 feet of the operations have been tightly covered.
9. Responsible personnel have been assigned to watch for dangerous sparks in the work area, as well as on floors above and below.
10. Arrangements have been made for a patrol of the area, including floors above and below, during any lunch or rest period and for at least one half hour after work has been completed.

TO REPORT A FIRE SHOULD ONE OCCUR
