

Hi, my name is Kelley McGraw

00 to 03

I'm a freshman Teaching Fellow at UNCG

03 to 05

I just basically want to tell you today that

05 to 07

I'm proud to be a Teaching Fellow and tell you some things about it

07 to 12

We get involved in the community and into the schools

12 to 17

At a very early start, which I think is the coolest part about it

17 to 20

We also have a cool motto: Teaching is a profession that encourages all professions

20 to 25

Which in my book is the basis of everything

25 to 28

And I like it because we are very close knit

28 to 32

Even though we are very diverse at the end of the day we are one unit

32 to 36

And that is why I am glad to be a part of UNCG's Teaching Fellows

36 to 39
