

Staff Senate Committee Goals 2009-2010

Budget & Compensation Committee

Chair: Karen Ward, kmward@uncg.edu

1. By the end of the Spring Semester, be better educated on the budget allocation system at UNCG and the UNC system. Namely, how the budget is allocated from the moment the budget is approved in Raleigh to the time it is allocated to the various departments and divisions on campus.
2. The committee will be better educated on the Career Banding System, and help to initiate a salary study for the University to include salary comparisons with the other state institutions.
3. Possibly develop a “budget concerns” survey to begin gathering information, and then use that information to develop topics for open forums (possibly do this through the Road Shows).

Bylaws Committee

Chair: Stacy Kosciak, sbmeadow@uncg.edu

1. Evaluate the current Bylaws of the UNCG Staff Senate to assure they are in alignment with the direction and needs of the organization and the University.

Communications Committee

Chair: Brian Wilson, bhwilson@uncg.edu

1. Campus Weekly Submission - Every Month
2. Disseminate Events/Gatherings/Etc. for Staff benefit (not just Senate) with list servs, hard copy, and personal discussion
3. Promote better transmission of information using all (but not limited to) the following:
 - Bulletin Boards
 - Campus Weekly
 - Road Show Promotion
 - Staff Senate Web Page
 - Other Non-Electronic Deliver Areas/Methods

Campus Community Well-Being

Chair: Jeffrey Coleman, jkcolem2@uncg.edu

1. Addressing the need for a staff computer station in the “neutral” area of each department (breakroom, lockers area, time-clock station, etc.) that could be accessed by staff for, among many things, University news, Staff Senate minutes, leave balances, pay stubs, schedules, copies of policies and procedures, etc. Lack of such access provided in “neutral” or “staff” areas tends to make staff feel alienated or “cut-off” from what’s going on.
2. Exploring ways to promote healthy lifestyles within the workplace (e.g., a proactive approach to preventing heart attacks).
