

WEB3 Project Team

01-05-2006

Present: Miriam Barkley, Bo Bodenhamer, Scott Brewster Richard Cox, Jason Fleck, Andrew Marker, Kevin McClain

Absent: Egemen Baykal, Jaysen Buterin, David Rivera, Todd Sutton, Anita Warfford

Recorder: Sherri MacCheyne

Andrew Marker

- ASP.NET upgrade.
We are in the process of upgrading asp.net to 2.0. **Version 1.1** will remain available for those who have programs that are too complex or cumbersome to recode for 2.0. An email will go to the UWDG list to let them know this is happening and when.

The access rights will not change.

Richard Cox

- IT Services will be meeting with Library IT Staff to discuss Lib access. Currently, the Library **issuing** local authentication and not letting in access from the outside. Lib Access uses LDAP authentication.

Bo expressed concern regarding the affect this might have campus wide. If it is going to affect other departments, then there needs to be representation at these meetings.

- Portals
There needs to be a clear definition of what **they the** WOC has in mind for the portal. Before we can discuss it, we need to know what the budget is, and what the parameters are.

Miriam Barkley

- Membership
Miriam inquired about the status of Egemen Baykal. There are some changes in his department.

Action: Miriam to ask Egemen if he wishes to remain a member.

- Assessments from Web Certification Training

Miriam handed out a few completed assessments for the team to review. There is a need to rework question 7. There is also the question of what we do with the assessments once they are completed.

Resolution: The team reworked the question and the assessment will be revised.

Resolution: There should be a log stating which person to which course.

Action: Sherri will create a database to capture the certification information.

- Web Certification Program

Action: Miriam will meet with **the** Campus Weekly **editor** to publicize this program.

Kevin McClain

- First Fridays and Round Table meetings
There are charges associated with using EUC equipment. How should I proceed with these charges?

Resolution: We will take our own equipment for these meetings.

Resolution: We need to come up with a budget to submit to the WOC that encompasses more than just training costs.

Action: Kevin and Richard will work on a budget for us to review and then present to the WOC.

General

IT Services has undergone another reorganization and has a new name. Of special interest is that they now have their own "Office of Communication." This is the office that all **IT** issues are to go through when it involves campus – such as the system crashing. Miriam indicated that this needs to be **planned** in conjunction with University Relations. This office is currently under Todd Sutton and Denise Cowardin's responsibility.

The next meeting is January 19, 2005.

Agenda items to add to next meeting
