

Web3 Meeting

01/25/07

Willow Room

Attending:

Bo Bodenhamer
Scott Brewster
Jason Buterin
Richard Cox
Paige Ellis
Sean Farrell
Jason Fleck
Kevin McClain
Rob Owens
Anita Warfford

Recorded by: Richard Cox

Level 2 Training Subcommittee Report

- The content for the security class will be provided by Andrew Marker
- The question was raised on whether there was a need for a class on what makes good web design; it was determined that this might better fit as a UWDG session
- Kevin is working on standardized training manuals for all of the level 1 classes
- The multimedia class will be a 2 hour, 2 part UWDG workshop

Campus Links

- Campus links have been updated and Paige expects the updates to be launched by Wednesday, January 31st

Calendaring Subcommittee

- Met last week and looked at the Google calendaring product
- Kevin requested an additional two weeks to look more closely at possible setups with the Google tool
- Google seems to be a viable option, but the question is the best way to implement it
- Port 80 is a stalling point

UWDG Social

- Kevin is probably going to stick with Tate St. as the general location, because of the convenience of walking from work
- Backstreets' underground was also brought up as a good option
- Kevin is going to look into a Thursday date in March
- We are considering also doing WebFest again this summer

Nominations

- Nominations were taken for chair of Web3- Richard was nominated and selected to continue to chair
