

Web3 Meeting

07/18/2007

Attending:

Bo Bodenhamer
Richard Cox
Paige Ellis
Sean Farrell
Jason Fleck
Andrew Marker
Kevin McClain
Todd Sutton

Recorded by: Sherri MacCheyne

Home Page Modification

Paige has submitted a change to the Home Page. This change includes a link to Blackboard from the home page, and, is an icon labeled Bb. In order to include this, a redesign of the gray box surrounding the search box needed to be completed.

The WOC approved this change. Upon completion, Paige forwarded it to Richard Cox and Kevin McClain to update the wrapper. At this point, Red flags were brought up. This is the reason for this meeting.

We really need to put this sort of icon on a portal, but we do not have a portal.

Richard and Andrew asked if we are legally able to use the Bb, or is a trademark.

Action: Paige to ask Rob Owens to inquire about the Bb trademark with Blackboard.

Andrew stated that the home page is used by everyone, not just the public. The homepage is a blended system, not a brochure.

There does need to be some strategic decisions regarding what goes on the home page.

Ultimately, the home page is in the purview of University Relations.

Action: Paige will work with Lyda and then distribute ideas to the group.

Portal

We are not going to use Blackboard as an interim portal. The Executive Staff wants to look at Luminous. This means we won't have an immediate portal. However, we will have a more robust portal sooner than originally planned.

Certification

We are deciding on which courseware for level 2 certification. In addition, we need more people to volunteer to teach the classes.
